Committee Member	M0LEP Rick Hewett	01689 851472

### Dear Members & Friends,

Hello and welcome to a special issue of the February 2015 Newsletter, edited by John G8IYS. This single sheet special is for two reasons, one consequent upon the other.

Members who attend Club meetings regularly cannot help but to have noticed that the lumpy growths on my nose have reached epic proportions. The condition is known as Rhinophyma and is not malignant, but is very uncomfortable and unsightly. For several months I have been waiting for an operation to remove the growths and carry out some remodelling. With only a few days notice, I have been offered an appointment for 27 January I have accepted with some enthusiasm. Dressings should be off about 14 days thereafter. With the operation date occurring at about the time I normally complete and dispatch the Club newsletter, clearly some

special steps needed to be taken. Thus the normal February issue will be distributed about 10-14 days later than normal - when I am able to dedicate the necessary time and attention.

### THIS MONTH'S MEETINGS

**1<sup>st</sup> Meeting. Monday 2 February.**  
**Fix-it, Move-it-On, Technical Advice, Informal Session led by John G8MNY.**

**2<sup>nd</sup> Meeting Monday 16 February.**  
**Understanding and Using the Fun Cube 1 and Saudi-Sat Amateur Radio Satellites with Mike Parkin G0JMI**

Please note the reversal of the normal order of the formal and informal meetings. This was to match with the availability of the speaker.

73. John G8IYS. Editor
